

## Steering Group Member Profile

Name: Jason Stamp

Group/  
Organisation:  
(if applicable)

### Personal Statement

I am applying to become a member of the Steering Group as I believe that I have the required skills, knowledge and experience to undertake this role. A successful LINK will rely on the leadership and vision of its Steering Group and the ability to undertake its role to the best of its ability.

I was one of seven workers responsible for developing and designing the national LINK proposals and preparing the groundwork for how LINKs would work on a local level. I have a good understanding of the potential influence and impact of the LINK and am committed to ensuring that the LINK achieves positive outcomes for the people of Hull.

I have considerable experience of working in a community engagement setting and I have been responsible for a number of consultation exercises with a diverse section of the community. Within my employment I have gained an excellent knowledge of the health and social care priorities for Hull.

I have wide experience of working with senior officers in the statutory and voluntary and community sectors and have a positive, motivational approach to everything I undertake. I enjoy new challenges and working creatively to develop new ways of working.

I am committed to developing positive and pro-active working relationships with health and social care providers and promoting the active involvement of LINK members in the commissioning, delivery and review of local services. I strongly believe in the value of partnership working with all sections of the local community.

I am particularly interested in the engagement of traditionally 'hard to reach' groups decision making and in creating a broad range of opportunities for meaningful involvement.

My specific areas of interest are mental health services, alcohol and substance use services, diabetes care and sexual health.
