

Steering Group Member Profile

Name: Sam Bell

Group/
Organisation: Goodwin Development Trust
(if applicable)

Personal Statement

I have 42 years experience as a nurse, school nurse, health visitor and until recently was head of Children's Services for the Primary Care Trust.

My qualifications include: BA Applied Social Studies
Registered General Nurse
Specialist Community Public Health Nurse
Post graduate Certificate in Managing in Health and Social Care
PRINCE 2, Foundation in Project Management
City & Guilds 7307, Teaching in Adult Education
Community Practice teacher – Health Visiting

In my current role as Strategic Health Manager for Goodwin Development Trust I hold responsibility for some key areas of activity that will continue to assist me to undertake this role if I am re elected.

I regularly have to digest complex documents and reports and have on many occasions presented ideas views and arguments especially when attending partnership meetings and contributing to tasks that arise from these meetings. I am a member of the Care Forward group, the Coalition of Advocacy providers and the Better Health sub group of Hull's Learning Disability Partnership.

My role allows me to support the delivery of several community based projects - an example being the Smoke Free Zones project where we are working to raise awareness in local communities of the impact of passive smoking on young children and are working with families to create places in their houses and cars that remain smoke free. This gives me the opportunity to remain involved with issues that are of key importance to the city and to interact with diverse groups

For the past few months I have been responsible for securing Care Quality Commission registration for some of our services and this has provided me with valuable insight into the quality standards that need to be achieved amongst service providers in the future .

I have been the representative for Goodwin on the LINK steering group previously and have enjoyed the role involving myself fully in specific tasks such as the production of the LINK report on Alcohol Services . I am able to commit sufficient time and to the Terms of reference for the Steering Group.
